- 1 Elaina was a great help in discussion.
- 2 This women needs to be given more credit for the work that she does that Richard Baker should be doing. Elaina if you are reading this you **NEED** to report Baker. Let's face it, we all know that they way he teaches and runs his class is not beneficial to learning the course materials. Exams are extremely unfair and the way he lectures and points to his notes in 2010 is unexceptable. The fact that he does not post any exam scores or lets the TAs see exam scores are also unfair and stupid. **THIS MAN NEEDS TO GET FIRED!**
