

Calculus II (Spring 2021)

Instructor: **Aceves, Elaina**
Subject: **MATH**
Catalog & Section: **1860 0F32**
Course ID: **MATH:1860:0F32**
Objectives:

Enrollment: **6**
Responses Incl Declines: **3**
Declines: **0**

Overall (Open Ended) (9 comments)

Q: What aspects of the course were most useful for your learning?

- 1 The simplified bullet notes about what was most important in the chapter during the discussion were most helpful because it gave me a guide to follow to study for midterms/exams.
- 2 Elaina was very available to us for help and always understanding of circumstances. She provided assistance and explained problems in helpful ways.
- 3 Clear examples used for problems, accessibility to instructor for questions.

Q: When this class is taught again, what changes would you suggest?

- 1 I enjoyed the way the class is taught and wouldn't suggest anything major except a few more practice problems.
- 2 None, Elaina was a good TA
- 3 The discussion section was great. No changes necessary.

Q: What else would you like the instructor to know about your experience in this course?

- 1 My experience with this course was great as it did clarify the lectures and topics being covered in an understandable manner.
- 2 I really enjoyed having her as a TA
- 3 Elaina is the sole reason I got through this course. She made the concepts of this class relatable and understandable through clear examples and language in teaching, and was very accessible for questions and help in office hours and over email outside of class as well. I'm not sure I would have passed this class without the instructional support and encouragement from Elaina during this class.
